Re: Amanda Johnsen – Letter of Recommendation

To whom it may concern:

It is my great privilege to recommend Amanda Johnsen for employment.

As the Client Relations Manager of Neuralog, LP I hired Amanda over ten years ago. She worked with me for several years before she was asked to take over Neuralog's domestic and international shipping department. I was very appreciative when years later she was able to move back to my department where she worked for the past three years.

I cannot say enough wonderful things about Amanda. She is proficient with Microsoft Office and QuickBooks and has also used SaasOptics. She has handled order processing, billing, shipping, software licensing, customer service, product ID tracking, collections, and has been backup for answering phones, filing, and various other duties. There is nothing that was ever asked of her that she could not do (and excel at). She was always looking to learn new things and improve processes. Amanda is dependable, trustworthy, honest, punctual, and has a great work ethic. The quality and accuracy of her work leaves nothing to be desired. If she doesn't know how to do it, she will figure it out -- if there is a problem, she will find a solution -- if there is a need, she will fill it.

Amanda would be a tremendous asset to any company, and I highly recommend her. She has a great attitude and is such a joy to work with. She is truly an exceptional young woman in every sense of the word.

Please feel free to contact me to further discuss her qualifications.

With kindest regards,

Pamela Fleming
